Tools: VS Code | NPM | | Yarn | Git | Vercel | Netlify

Soft skills: Self-Learning | Team Work | Communication | Adaptability

Languages: Bangla | English

EXPERIENCE:

Full Stack Developer

March 2023 – Present

Webcoder IT Institute

Dhaka, Uttara

- Lead the front-end development for web applications, utilizing Vanilla JavaScript, React, and TypeScript to build dynamic and interactive user interfaces.
- Collaborate with the back-end developer to integrate RESTful APIs, ensuring seamless data flow and efficient API communication.
- Design and implement modern UI components using Tailwind CSS and other modern UI libraries to create responsive, visually appealing, and intuitive interfaces.
- Write reusable, modular code that follows JavaScript and TypeScript best practices to maintain project scalability and reduce maintenance time.

PROJECTS:

Bazaar bridge — Multivendor e-commerce platform

[Preview](#) | [Github](#)

- Implemented role-specific features for admins, vendors, and customers, ensuring secure and efficient platform management.
- Enabled vendors to add, edit, and duplicate products with detailed attributes like price, category, inventory, images, and discounts.
- Developed advanced filtering, searching, and product comparison features for customers, improving product discovery and selection.
- Built intelligent cart logic restricting products to a single vendor, with Aamarpay integration for secure payments.
- Implemented order tracking and a review system for vendors and customers, enhancing transparency and engagement.

Technologies: Tailwind CSS, TypeScript, React, MUI, Redux, Express.js, PostgreSQL, and Prisma.

PETS — social media platform

[Preview](#) | [Github](#)

- Implemented JWT-based login, registration, and profile updates. Users can manage posts, followers, and personal info.
- Developed a rich text editor for creating pet stories and tips, with image uploads and premium content using Stripe/Aamarpay.
- Built a real-time, infinite scroll news feed with upvotes, comments, and advanced search and filtering for easy content discovery.
- Created an admin panel for managing users, content, and payments, with post-publishing controls.

Technologies: Tailwind CSS, TypeScript, Next.js, Nextui, Axios, Tanstack Query, Express.js, MongoDB, and Mongoose.

EDUCATION:

HSC — Jahapur kamala kantha academy & college

2023
